## *The Writers Guild*

The Writers Guild is a diverse group of writers that welcomes professionals, amateurs and aspiring beginners alike, to join together to promote literacy in our culture and to help each other achieve our personal goals as writers.

Our Mission is to provide a positive and productive atmosphere for aspiring writers to learn and grow and provide a platform for experienced writers to enrich and enhance their skills through study, teaching, and mentoring.

The Guild provides instructive discussions in the writer's craft enhanced with a variety of activities including workshops, exercises, readings and projects designed to augment each member's skill and competence as a writer.

Thank you for sharing the evening with us as we celebrate another year of growth in writing achievement and friendship.

Charles Prier—Introductions
